

- **Polyester Braided Sleevings** is suitable for the mechanical protection of harnesses, hoses and all other applications where **exceptional flexibility combined** with superior abrasion / cut resistance is required.
- It acts as an economical tool for wire bundling that will not retain heat or moisture, easily expands to fit irregular shapes, then shrinks for fit and grip.
- **To prevent fraying**, these products should be cut to length using a hot knife.
- For products delivered on reels, the continuous product length is at least 50 meters.
